### 'H' FOR HUBLOT ON HELIPADS AT MONACO GP

---

For those who come by helicopter to Monaco for the Grand Prix weekend, you will note the Hublot's stylised "H" on the Monaco helipads.

For the second consecutive year, this unique, innovative initiative was developed and led by the prestigious company **Monacair**, the official transporter of HSH the Sovereign Prince Albert II of Monaco, which has teamed up with Hublot to offer anyone arriving in Monaco by helicopter during the Grand Prix week – VIPs, guests, stables, drivers, press, as well as residents and visitors – a personalised welcome, complete with red carpet and a small signature gift courtesy of Hublot and Monacair.

The famous "H" welcomed the Scuderia Ferrari pilot Kimi Raikonen and his Big Bang Ferrari Red Magic offered by Hublot CEO Ricardo Guadalupe during Spanish Grand Prix. We hope this arrival will bring him luck for the Monaco F1 Grand Prix.

Since it was founded in 1988, Monacair has acquired unique experience in VIP transport aimed at customers seeking a high-quality, personalised service. Its ceaseless quest for high-quality expertise earned Monacair the prestigious title of Official Supplier to HSH the Sovereign Prince Albert II of Monaco in 1999. Monacair is now world-renowned for its experience and professionalism in personalised VIP service.
