

Hublot partners POLO CLUB GSTAAD

Hublot likes to meet with its clients, wherever they are. The Swiss watchmaker joins with them in their passion for car racing, sailing, football, or even jet piloting. As of this 2007, it's polo which has conquered the brand ? this prestigious, spectacular and lively sport that symbolises the fusion between man and horse in an agile and elegant joust. The company will be involved not only as major sponsor of the tournament, but also with one of the four competing teams, which will wear its colours!

Quotes:

Jean-Claude Biver, Chairman of The Board of Hublot, is delighted with this new partnership: "... Hublot is proud to associate its image with this prestigious and glamorous tournament ... and with the team players who will sport the brand's colours! I am looking forward to attending these contests, which for me represent a pinnacle of excellence in sport."

"This is an important development for our tournament", added Pierre E. Genecand, President of the Gstaad Polo Club.

"Hublot's involvement as a partner can only benefit the dynamism and international standing of our tournament, and through this event, of polo as a whole".
