OVERVIEW

- A.** Manual Winding crown
- B.** Hours and minutes rollers display
- C.** Tourbillon inclined at 35° - Seconds display

- D.** Power reserve display
- E.** CTime setting - Telescopic crown
- F.** Gold weight in linear movement

INTRODUCTION

The Manufacture's new MP revisits the fundamentals of watchmaking: no dial, hands or oscillating weight, instead a roller display, a circular power reserve and an inclined tourbillon automatic winding by two linear weights.

One specific objective for our engineers was to reinvent the automatic winding. The weight principle has been retained but verticalised, through two gold-weights which move vertically allowing to wind the movement. Ergonomic and minimalist the case offers a unique design with its rounded angles. It is made of titanium and the sapphire crystal atop is Hublot's most complex to date. The same applies to the integrated rubber strap.

This Manufacture Piece is an ode to the future of watchmaking thanks to its innovation, inspired by the Art of Fusion, Hublot's signature and is a limited edition of 50 pieces.

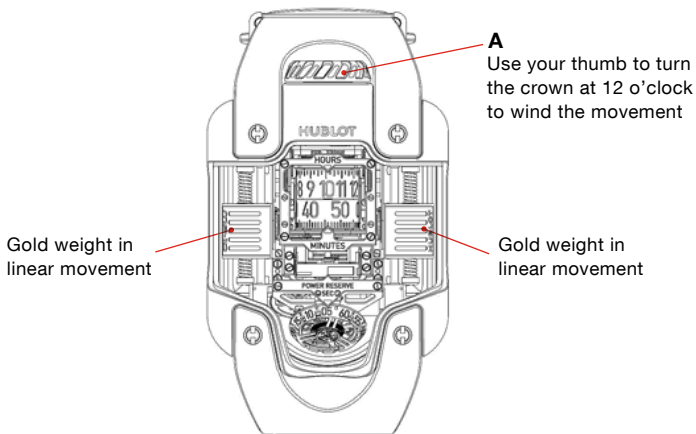

WINDING

This function accumulates the energy required by your watch to run properly.

USE

Manual winding and power-reserve

Your MP-10 is equipped with a hand-wound tourbillon movement and offers a power reserve of approximately 48 hours. This masterpiece has an automatic winding system via 2 gold weights in linear movement, cushioned by springs with the possibility of manual winding, with the watch on the wrist, using your thumb on the large crown (A), located at 12 o'clock

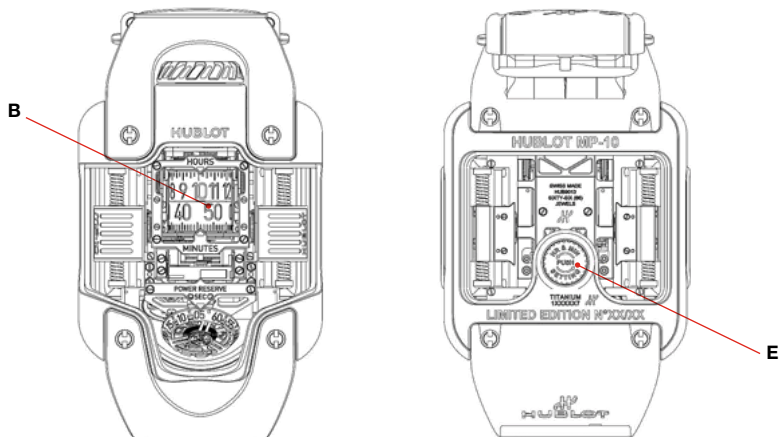

TIME SETTING

This function enables you to set the time of your watch using the crown.

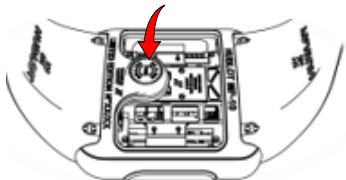

Hour and Minute display on upper rollers (B), located on the 6h/12h axis, adjusted via a telescopic crown (E) totally integrated into the case on the back side, protected by the glass.

USE

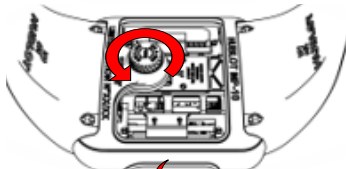

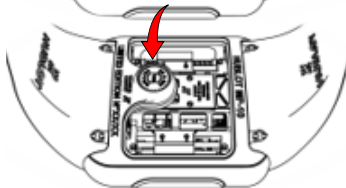

TIME SETTING

A push with your fingertip / nail at the center of the crown allows it to come out automatically.*

Turn the crown counterclockwise to set the watch to the correct time.

A push on the crown allows it to return to a neutral position.

Time setting should not be done underwater or in a humid environment to ensure the watch waterproofness. The crown must be in a neutral position (meaning pushed completely inside its case).

** If the crown does not come out, you can push it at the center and slightly rotate it clockwise at the same time.*

HUBLOT INTERNATIONAL GUARANTEE

Manufactured in the purest Swiss watchmaking tradition, your Hublot watch has been individually tested to ensure its optimal functioning and water resistance. An international warranty covers your watch against any manufacturing defects (the "**International Warranty**") under the terms and conditions described below.

All Hublot watches purchased from our official network, whether in one of our boutiques, from one of our authorized retailers, or on our e-commerce site (our "**Official Network**") are covered by this International Warranty.

International Warranty Period

- **For watches (excluding *HUBLOT Certified Pre-Owned watches*) purchased through our Official Network starting January 1, 2026:** Your watch is covered by an international warranty for **five (5) years** from the date of purchase.
- **For all other watches purchased through our Official Network:** Your watch is covered by an international warranty for **two (2) years** from the date of purchase. This specifically concerns:
 - Watches purchased on or before December 31, 2025.
 - All smartwatches, regardless of their date of purchase.
 - All *HUBLOT Certified Pre-Owned watches*, regardless of their date of purchase.

What the International Warranty covers

Hublot undertakes to repair any malfunction of your watch resulting from a manufacturing defect free of charge. Replacement of the battery in a quartz watch will be provided free of charge. It is important to note that battery replacement service does not cover the overall condition or other functions of the watch and does not imply that no other service is required.

HUBLOT INTERNATIONAL GUARANTEE

This International Warranty will only be valid throughout our Official Network and in authorized Hublot Service Centers, regardless of the country in which your watch was purchased. You will find the complete list of Hublot boutiques and authorized Hublot retailers on the Hublot website at the following address: <https://www.hublot.com/fr-int/boutiques>.

What the International Warranty does not cover

The following are expressly excluded from the International Warranty:

- any defect or damage resulting from improper or abnormal use, an accident (e.g., scratches, impacts, dents, damage, or crushing of the case, glass, bracelet, or buckle, etc.), incorrect use of the watch, contact with aggressive or corrosive substances (e.g., acids, solvents, inappropriate cleaning products), or failure to follow the instructions for use and maintenance provided by Hublot;
- defects or damage resulting from service, handling, modification, or repair carried out anywhere other than at a Hublot boutique, an authorized Hublot retailer, or a Hublot Service Center, or through the use of components and/or accessories other than those recommended by Hublot;
- wear and tear due to normal use and aging of your watch, including any wear on surfaces due to normal use, scratches on the case, strap, crystal, or buckle, damage to surfaces, or contact with chemicals;

HUBLOT INTERNATIONAL GUARANTEE

- any defect resulting from contact with water if the watch has not been used in accordance with its water resistance specifications, if the crown or push-pieces were not properly closed, or if the water resistance tests recommended by Hublot have not been carried out regularly or by a Hublot boutique, an authorized Hublot retailer, or an authorized Hublot Service Center;
- Hublot watches and components that are not absolutely authentic;
- any watch that Hublot suspects has been lost or stolen. As such, Hublot reserves the right to refuse warranty coverage for any watch that has been reported as lost or stolen, including, but not limited to, if it is listed in a database of lost and stolen products.

What are the terms and conditions of the International Warranty?

To be covered by this International Warranty, the following conditions must be met:

- your watch must be covered by a valid international warranty at the time of the service request;
- the serial number engraved on the case must be perfectly legible, and no part of the case back or original serial number must have been removed, modified, falsified, altered, replaced, erased, damaged, or rendered illegible.

Failure to comply with the above conditions will render the International Warranty null and void.

HUBLOT INTERNATIONAL GUARANTEE

Limitations of terms and conditions

The International Warranty does not affect any other rights you may have under applicable national legislation, which may vary depending on the country where you purchased your Hublot watch. The International Warranty does not exclude, modify, or reduce these statutory rights. For a complete understanding of your rights, we encourage you to consult the laws of your country.

RECOMMENDATIONS & CARE

The constituent parts of your Hublot watch are all of the finest quality, and inspected under extremely stringent criteria. They combine to form a piece with exceptional water resistance, with certain models capable of reaching a depth of 4000 meters. To preserve these qualities, we recommend a complete overhaul every 3 to 5 years, since temperature variations, humidity, perspiration and repeated shocks may affect its water resistance as the years go by.

With its water resistant case and rubber, ceramic or carbon strap, or gold or steel bracelet, your Hublot watch can be washed easily. If the watch has an alligator strap, you are advised to take it off when bathing. Clean it regularly in lukewarm soapy water, rinsing and wiping down carefully with a soft cloth. After wearing your Hublot watch in seawater, please rinse it in fresh water.

BECOME A HUBLOTISTA MEMBER

Register your watch and join Hublotista – Hublot's owner club – to access exclusive privileges and experiences.

As a member, you will:

- Extend your watch warranty of about a year (subject to certain conditions)
- Attend exclusive Hublot's event all around the world
- Be first in line to access our newest and most exclusive watches.
- Manage your watches, in one convenient place.

To subscribe, create an account on **www.hublot.com** and register your watch.
